The main logo consists of a wordmark. It is carefully constructed to maintain luxury and classic characteristics while allowing perfect legibility at various sizes and applications. The logo was designed with specific proportions to maintain the overall balance.

Logo Clear Space

Clear space is the area surrounding the brand mark that is kept free of all extra elements including logos, symbols, or text. This ensures the prominence and legibility of the logo in all communications. As illustrated, the minimum clear space surrounding the logo is measured using the height of the X. The shape of the logo should not be altered in any way.

Brand Mark

The brand is built with the first letter of the brand name. It can be used in many different ways due to its simplicity, such as the instagram profile icon.
